AUTISTICS 4 AUTISTICS

TRI-CITIES, WA

A peer-led space for autistic adults to connect, share, and support one another in an environment built on mutual understanding and lived experience.

OVERVIEW

Meetings begin at 6:30 PM with a brief overview of the group, followed by optional introductions. The majority of our time is an open, low-pressure social space where members may share experiences or simply listen. Participation is always voluntary. We close together at 8:00 PM.

GUIDELINES

This group is for adults (18+) who identify as autistic, believe they may be autistic, or are in the process of diagnosis. To preserve a space centered on shared lived experience, participation is limited to those who personally identify as autistic. Caregivers, clinicians, and professionals are welcome to attend only if they also identify as autistic.

DETAILS

Thursday, Oct the 8th
