

Sachee Trivedi, Founder & Managing Partner Trident Capital Investments

Sachee Trivedi is the founder and managing partner of **Trident Capital Investments, a long-only, high-conviction Indian public equities fund.**

In her prior role as a fund manager with the global equity team that managed c. \$10bn at Columbia Threadneedle in London, Sachee witnessed allocator returns increasingly at risk due to **over-concentrated exposure to large U.S. technology firms** and the **geopolitical uncertainties associated with China**. Trident Capital addresses this **critical gap** in portfolio diversification and growth. Sachee has committed her **entire net worth** to Trident Capital, demonstrating her conviction in the fund's mission and strategy.

Sachee believes that **India is not only a diversifier but also a critical engine of incremental global growth**. Currently the fifth-largest economy, India is projected to grow at **6-7% annually** in the coming years, positioning itself as the third-largest economy in the world. This rapid growth will drive **substantial increases in India's weight in global benchmarks**, providing early investors with **significant tailwinds** to their returns.

Sachee describes India as “**the USA of the 1950s and 60s, supercharged by the digital revolution.**” She sees the country leveraging **democracy, capitalism, entrepreneurship, and favorable demographics** to ascend to the ranks of global economic powerhouses.

Hailing from a modest upbringing in the crowded towns of the **Gangetic plains of India**, Sachee's journey has spanned continents, cultures, and social strata, from **India to New York, London, and Luxembourg**. This breadth of experience allows her to remain grounded in reality – a critical trait for any investor. Her academic qualifications in electrical engineering from the **prestigious Indian Institute of Technology, Kanpur**, and the **University of Maryland**, provide her with a strong technical foundation to assess technological advances and their societal impacts – an essential skill in an ever-evolving world.

While pursuing her MBA at **Columbia Business School**, Sachee had the privilege of interacting closely with some of the world's most influential investors, including **Warren Buffett, the late Charlie Munger, Ray Dalio, John Griffiths, Bill Ackman, and Bruce Greenwald**. These luminaries have shaped her investment philosophy. At Trident, she [2](#)

invests in businesses with **strong corporate governance, wide competitive moats, compounding business models, and a margin of safety.** The fund's preferred holding period is aptly summarized as '**forever.**'

Sachee resides in Luxembourg with her husband and two children. **As a family, they share a passion for yoga, meditation, books, and hearty meals.** Sachee is a founding member of the **100 Women in Finance Luxembourg Chapter** and a **patron of Indian classical arts at the Bhartiya Vidya Bhavan in London.**

Sachee's **vision, discipline, and conviction** position her as one of the most **influential women investors** today. As she scales Trident Capital, Sachee is dedicated to building long-term partnerships with investors who share her unwavering belief in democracy and the **transformative potential of India's 1.4 billion people.**
