Mr. Michael Briegel
President
Newton Country Club
25 Club Road
Newton, NJ 07860

Dear Mr. Briegel,

On behalf of Eva Turbiner and the staff of Zufall Health, thank you for your kind letter and notification that Zufall will be the beneficiary of your Sussex County Open this year. What a wonderful surprise to be the recipient of this event! We are honored that the Board of Trustees has selected Zufall, especially in memory of Paul Nusbaum. Paul was a wonderful friend to Zufall Health and provided years of wise guidance as chairman of our Board of Trustees.

I have attached a one-page backgrounder about Zufall Health and am happy to provide a file with our logo if that is useful. Please let me know if there is other information that you need for your publicity. I would love to assist at the event in any way that would be helpful and will see who else from our staff can attend as well.

Thank you again for this wonderful honor and I look forward to working with you on this event.

Best regards,

Shade W. Cronan
Foundation Director

Zufall Health has been providing high-quality, affordable medical treatment to New Jersey’s working poor, uninsured, and underserved populations for more than 30 years. Founded as the Dover Community Clinic by Dr. Robert Zufall and his wife, Kathryn, it was a tiny volunteer effort, operating just one night a week out of a modest room within the Morris County Organization of Hispanic Affairs. Today, Zufall Health is a seven-day-a-week, independent, not-for-profit, state-licensed community health center, and has extended its reach into numerous communities throughout seven northern and central New Jersey counties.

Comprehensive services include adult and pediatric medicine, dental care, women’s health, cancer screening, podiatry, HIV care, neurology, optometry, and behavioral health, nutrition, and clinical pharmacy counseling. They are delivered by a caring, bi-lingual staff of board-certified physicians and dentists (paid and volunteer), social workers, pharmacists, and support professionals. Zufall also offers enabling services including eligibility assistance, case management, transportation, health literacy training, outreach, and translation. Funding for its activities is provided by government and other grants, revenues from patient services, and private donations. Revenue from the federal government represents only 20 percent of its annual operating budget.

Zufall Health’s almost 40,000 medical and dental patients are among the neediest in the state. Currently, 53 percent are uninsured, with most of the remaining on Medicaid, NJ Family Care, or Medicare. Almost 80 percent have incomes below 200 percent of the federal poverty level. Seventy- eight percent of patients are Hispanic or Black, and 61 percent are best served in a language other than English. In 2020, Zufall accommodated a combined total of over 176,000 patient encounters virtually and at its sites in Dover, Morristown, Hackettstown, Flemington, Somerville, West Orange, Newton, and on its Highlands Health Van and Zufall Health Delta Dental Mobile.

Recognized as a national quality leader, the health center and several staff members have been cited for outstanding achievements. Zufall’s successful hypertension control initiative received Target: BP Gold Recognition from the American Heart Association and the American Medical Association. Also, the Healthcare Institute of New Jersey honored Zufall for its accomplishments addressing patient access and advocacy. Other significant new activities in 2020 include partnering with the state of New Jersey for mass flu vaccinations, offering COVID-19 testing at all sites and at community partner locations including for migrant and seasonal farmworkers, and starting COVID-19 vaccinations at Zufall sites.
