

Nick Kropf and Henry, transplant recipient

Every day, thousands of patients like Henry, are diagnosed with life-threatening blood cancers like leukemia or diseases like sickle cell. A bone marrow or stem cell transplant is their BEST HOPE for a CURE

A genetically matched blood stem cell donor can be their life-saving CURE

I am Nick Kropf. My Eagle Scout Project 2018 focuses on helping more patients like Henry, find their match. If you are ages 18-44, join the registry to be someone's cure.

<http://join.bethematch.org/nickeagle2018>

Register online • Check ALL ethnic backgrounds that apply to your genetic heritage

A swab kit will be mailed to you • Return the kit in the postage paid envelope

If you can't join the registry you can still help by making a donation to save a life

To make a tax deductible donation go to: <http://www.bethematchfoundation.org/goto/NickEagle2018>
