

Faculty Position in Translational Regenerative Therapies for Neurologic Disorders

The **Lerner Research Institute (LRI)**, home to laboratory, translational and clinical research at Cleveland Clinic, and **Neurological Institute (NI)** invite applications for a joint faculty position in **Translational Cell Based Therapies for Neurological Disorders**. We are seeking applicants for full time positions at all academic levels who have expertise in translational cell-based (including stem cell therapies) and/or pharmacologic regenerative therapies for neurological disorders to integrate with the strong and vibrant established research and clinical infrastructure.

We seek creative investigators with an established track-record of translational cell-based or pharmacologic regenerative therapy approaches for neurological disorders to drive productive and innovative laboratory research programs between the LRI, NI, and the new Center for Immunotherapy of the Cleveland Clinic Health System (CITI). The Center is a state-of-the-art center focusing on research in immuno-oncology, infectious disease immunity, autoimmunity, and development of new immunotherapeutics for a broad array of human diseases. Responsibilities include developing an independent laboratory research program and participating in investigator initiated trials aimed at developing new cell therapy modalities for neurological disorders. The candidate should hold an MD, PhD, or both degrees with aptitudes for translating basic science discoveries into clinical trials and clinical practice. Responsibilities for candidates with MDs may include clinical care and clinical trial development.

The Cleveland Clinic is a not-for-profit, multi-specialty academic medical center that integrates clinical and hospital care with research and education. Cleveland Clinic is ranked as one of the nation's top hospitals by *U.S. News & World Report*. *U.S. News & World Report* also consistently names Cleveland Clinic's Neurology and Neurosurgery program as one of the nation's top programs and best in Ohio.

Interested candidates should send their CVs and a letter of intent to:
