

I've been working with Sacred Road Ministries for over five years now and I love it here. I have been coming to Sacred Road, and involved with the Ministry, since I was a little kid. We served God this summer by working side by side with our brothers and sisters, putting our hands to work for something bigger than ourselves. Roofing with Sacred Road Ministries wasn't just about fixing houses - it was about showing love through action. Each roof we worked on was a way to serve families in the community, giving them safety, security, and hope. We worked together in unity, encouraging one another, praying together, and trusting God to guide our efforts each day.
