

START A FUNDRAISER FOR MAKE-A-WISH®

Each person that fundraises for Make-A-Wish receives their own fundraising page. This page is where friends and family can donate to help reach their personal fundraising goal, and ultimately help grant wishes. Setting up a fundraising page is easy – follow these steps.

STEP 1: Visit wishyourway.org and click the yellow button, **GET STARTED**.

STEP 2: Select where you'd like the funds raised to go.

- Nationwide (serving children across the US)
- For a Local Make-A-Wish Chapter (a specific state/area within the US)
- Internationally (serving children across the globe)

STEP 3: Proceed to **LOG IN** or **CREATE ACCOUNT** to get started.

- Log In – If you are a returning supporter, log in with your existing username/password. Reset your password if needed. As a returning supporter, you'll have the option to bring back prior fundraising page content.
- Create Account – If you are a new supporter, create a new account including a username/password to access your Participant Center.
- All supporters will use their username/password to access the Participant Center to update fundraising page content and manage progress.

STEP 4: Select the type of fundraiser you will create – **Individual or Team**.

- Individual – Collect all donations on a single fundraising page.
- Start A Team – You are the team captain. Fundraise with others, together, on multiple pages.
- Join A Team – Join an existing team. Fundraise with others, together, on multiple pages.

STEP 5: Answer **REGISTRATION** questions.

- What best describes you – **Wish Family, Corporate, Student or Mission Supporter**.
- Set your personal fundraising goal. Your goal can be adjusted at any time.
- Jumpstart your fundraising by making the first donation. It will inspire others to give. (Optional)
- Provide your contact information and answer remaining questions.
- Review the guidelines & select **I AGREE**

STEP 6: Review your registration information and select **COMPLETE REGISTRATION**.

THANK YOU! You will receive an email confirmation with registration information.

PRO TIP: Take a few minutes now to access your Participant Center and personalize your fundraising page with a picture and story. (People who update their page raised up to 11x more than those who keep the default content.)
