

A Small Change, A Big Difference Contributed by [Greg Nasman](#) and Jim Harms

We're continuing to make improvements across our campuses to make getting around easier, safer, and more comfortable for everyone. Last week, our ADA drop-off area was expanded from about 6 feet to nearly 30 feet, creating more room for people using wheelchairs, walkers, canes, or simply needing a little extra space and closer access to the building. New yellow striping will also make the drop-off zone easier to see and navigate. It's a small change that can make a big difference, helping people get from their cars to the door safely and more easily.
