

Cost Projection Services

Coventry offers a suite of Cost Projection Services to provide unbiased third-party comprehensive assessments, staffed by a national network of certified planners. We provide a variety of cost projection services tailored to fit your needs and the specific circumstances surrounding a claim.

Life Care Plan

- Analytical method that estimates medical damages resulting from an injury or illness
- Provides a comprehensive outline of current and future medical, vocational, educational, and psychosocial needs of a chronically or catastrophically ill or injured individual
- Addresses life expectancy

Our team

- Performed by registered nurses holding a national certification in Life Care Planning
- 120 continuing education credits in Life Care Planning to qualify for certification
- 60 continuing education credits every five years
- Members of the American Association of Certified Life Care Planners
- Life Care Planners have clinical expertise in a variety of fields including traumatic brain injury, chronic pain, transplants, burns, and multiple trauma

Medical Cost Projection

- Sets reserves for an injury
- Addresses future medical, prescription drug, and DME needs for a defined segment of time from one year to lifetime expectancy
- All medical cost projections include:
 - Medical record review and summary
 - Comprehensive report
 - Narrative
 - Cost analysis worksheet
- Limited Cost Projection and Quick Costs Assessment are also available to provide a “snap-shot” of anticipated costs

Our team

- Hold CLCP or CNLCP certification
- Additional certifications include Certified Case Manager (CCM) and Medicare Set Aside Certified Consultant (MSCC)
