The Next Normal

The COVID-19 crisis looks set to accelerate an overdue transformation of the country's largest ecosystem. We will discuss some of the major shifts that will radically change the construction value chain, and offer a blueprint for the next normal ahead.

March 10, 2022 | 11 AM

New Ontario Construction Act

In this essential session, three senior construction lawyers will explore everything you need to know about the latest developments with the Construction Act. You will learn about key deadlines and procedures, how to pursue and defend against lien claims and how the industry has been impacted by the new prompt payment rules and adjudication process. The panel will also highlight critical aspects of the Construction Act that are too often overlooked.

Navigating the Tsunami of Collaborative Contract Models

While it is exciting the Canadian construction industry is discussing and implementing some new contract procurement models for capital projects, good explanations of the pros and cons of each model, and when to use each model, are still needed. This presentation will discuss these aspects of some newer collaborative contract models, along with the mechanics of why they result in better projects, and some tips for better procurement with these models.
