

Municipal Leadership Development Program

Developed exclusively for elected and appointed municipal leaders in Saskatchewan.

The Municipal Leadership Development Program (MLDP) is a series of modules that target specific issues of importance to urban, rural and northern municipalities in Saskatchewan.

Who should attend?

Mayors, reeves, councillors, elected officials, and municipal staff who want to strengthen leadership in their local government.

How much time will the program take to complete?

The program is a series of six modules. There are three sessions of modules held each year, a fall session and two winter sessions. Modules can be taken in any order based on the dates that best suit your schedule.

What's in it for me?

Plenty! The MLDP modules address key issues facing you in governing at the local level.

Participants will receive certificates after each module. Upon completion of all the modules, you will be recognized with a Certificate of Completion.

Program Modules and Registration

For more information about the modules, how to register, or for a schedule of upcoming workshops, please visit www.mldp.ca.
