Engineer

SARM's Programs Team engages with provincial and federal governments, industry leaders, and program partners, as well as other stakeholders, to effectively deliver SARM programs.

- Rural Road Classification
- Municipal Leadership Development Program
- Rural Municipal Administrator Scholarship Program
- Rural Municipal Administrator Internship Program
- Member Purchasing Approved Supplier Programs
- SARM/Canoe Procurement Group of Canada Supplier Programs
- Procurement Bootcamp
- Procurement Advising

Rural Integrated Roads for Growth (RIRG)

- Clearing the Path
- Rural Road Construction Program
- Bridge and Large Diameter Culvert Initiative

Sustainable Canadian Agriculture Partnership (SCAP)

- Plant Health Network
- Beaver Control Program
- Rat Control Program
- Gopher Control Program
- Invasive Plant Control Program

Members go to Programs for opportunities to support their RM's strategies and initiatives, consult with specialists for advice about how SARM's programs operate, and provide feedback on program improvements or ideas. Our team can also provide expertise on areas such as procurement, bridges construction, pest biosecurity, etc.)
