**Ingram Planetarium Kicks Off the Summer Season with
a New Classic Rock Laser Show**

Sunset Beach, NC – Ingram Planetarium is launching a brand new laser music lineup including never-before-seen sets featuring the music of the late Tom Petty and the laser artistry of Jack Dunn. Dunn, known at Ingram Planetarium for his smashing laser adaptation of The Beatles' Abbey Road, is back on the beams for a Tom Petty feature and has teased three sets from the full program before its complete release. These fan favorites are joined by samplings of other rock sensations such as Queen, Van Halen, Pink Floyd, and more for the most epic Classic Rock Night yet!

Join us on May 1, 8, and 15 at 7:00 PM and on Sunday, May 9, at 3:00 PM for a pre-summer launch. Then, beginning on May 15, Laser Classic Rock will play on Tuesdays at 4:00 PM and 7:00 PM through September 6.

Ingram Planetarium is located at 7625 High Market Street in Sunset Beach, NC. Admission is free for members. Non-member per-show admission is \$9.50 for adults, \$8.50 for seniors (62+), \$7.50 for children (3-12), and free for age 2 and under. Due to limited seating due to Covid, the planetarium suggests calling to reserve tickets on the day of the show. For more information, call 910-575-0033 or visit www.MuseumPlanetarium.org.
