

Butterfly Pavilion

Interns are paid \$17/hour through the Workforce Development Center, pending approval

Thanks to Mario for this contact! The Butterfly Pavilion has an impressive high school internship program for students aged 16 and older, allowing students to learn each aspect of the facility, participate in customer service and exhibit presentations/support, and also dive into an individual project of student choice. Interested in a certain arena of entomology, science education, pollinator gardens in urban areas, or other aspects of the natural world? The awesome staff will help you explore! Internships can last throughout the rest of this school year and into the summer.
