**Jeremy P. Stutsman, Mayor, City of Goshen:** Mayor Jeremy P. Stutsman took office in January 2016. Previously, he served on the City Council and Redevelopment Commission for eight years. He is a seventh-generation Goshen resident who graduated from Goshen Community Schools and Butler University. Mayor Stutsman has been active in numerous local boards and not-for-profit organizations over the past 20 years. He is the 30th Mayor of the City of Goshen and youngest mayor to serve the residents of the city.

---

**Shawn Seals, Senior Environmental Manager, Indiana Department of Environmental Management:** Shawn's IDEM responsibilities include conducting air quality outreach & education sessions, criteria pollutant planning for 8-hour ozone & fine particulates, developing State Implementation Plans, as well as facilitating all transportation conformity issues for IDEM. He is also IDEM's primary contact for all things diesel & the administrator of the DieselWise Indiana program. Shawn is a co-lead for the State of Indiana's partnership with the Midwest Clean Diesel Initiative. He also serves as IDEM's lead for transportation planning & the transportation conformity process & also IDEM's environmental point person for all fuel-type issues.

**Amy Hill, General Manager & CEO, South Bend Transpo:** Amy joined Transpo in April 2013, bringing extensive marketing, communications, public relations, business development & community outreach experience. In the short time Amy has been with Transpo, the organization has rebranded, launched a new website, opened the first-fast fuel compressed natural gas fueling center in the region & transitioned to designated bus stops. Prior to joining Transpo, Amy worked in leadership roles with the American Red Cross, South Bend Silver Hawks Professional Baseball Club & Gibson Insurance.

---

**Ryan Lisek, Project Manager, South Shore Clean Cities:** Ryan serves as project manager for South Shore Clean Cities & Wisconsin Clean Cities & Vice President of Operations for Legacy Environmental Services, Inc. Ryan has been associated with the U.S. Department of Energy's Clean Cities Program since 2015. Ryan's Clean Cities duties include managing the Green Fleet programs for two metropolitan planning organizations & being a technical resource for sustainable transportation & energy projects. His educational & technical experience spans financial, project management, energy, transportation & emission reduction sectors.

---

**Amy Rosa, Director of Transportation/School Safety, Wa-Nee Community Schools:** Amy has led the transportation department at Wa-Nee Community Schools since 2006. She began as a bus driver for Wa-Nee in 1997. Through the years she has worked in school transportation in Indiana and Ohio. Amy serves as a region director for School Transportation Association of Indiana and will represent Indiana as a delegate to the 17th National Congress on School Transportation in May of 2020.

**Adam Thada, Director of Ecological Relationships, The Center at Donaldson:** Adam serves as director of ecological relationships at The Center at Donaldson (TCAD), a ministry of the Poor Handmaids of Jesus Christ, where he carries on a longtime commitment to sustainability, ecology & earth education. In 2018 & 2019, Thada worked collaboratively to bring solar installations totaling 631-kilowatts to TCAD & Ancilla College of Marian University, the largest solar installation at an Indiana college or university. These were paired with electric vehicle charging infrastructure & a fleet that now includes three EVs.

---

**Nathan Oliver, Director of Transportation, Monroe County Community Schools:** Nathan has been working for Monroe County Community School Corporation for the past five years. Most of his duties involve but are not limited to establishing all bus routes for MCCSC & monitoring the transportation budget & researching & implementing new technologies. He is proud of being able to implement EV school buses & EV infrastructure into the MCCSC fleet. Nathan lives in Bloomington, Indiana. He uses his free time to serve as President of a high school football booster club, help his son & daughter start businesses of their own & spend time with his family.

---

**Doug Marsh, Vice President for Facilities Design and Operations and University Architect, University of Notre Dame:** Doug has been responsible for leading the University in the successful planning, design & construction of more than \$2B in new facilities, renovation, maintenance & utilities projects during his 25-year career at Notre Dame. He has lead the design & construction of more than 40 new campus buildings totaling over 4 million square feet & the renovation of scores of facilities during his tenure. Doug is also responsible for Notre Dame's Utilities, Maintenance & Landscape Services team that provide facilities operation services to 200+ buildings covering nearly 12 million square feet & more than 1,000 acres of campus grounds.

**Tyler Kanczuzewski, Vice President of Marketing & Sustainability, Inovateus Solar:** Tyler is the Vice President of Marketing & Sustainability, Board Member & an investor of Inovateus Solar. Originally from South Bend, he was recently immersed in the Grand Rapids & West Michigan sustainability community while working on his MBA at Grand Valley State University with an emphasis in Sustainability, graduating in 2019. He has since led the company's efforts in stewardship & sustainable practices & creative marketing.
