

HOMEGROWN INNOVATION

December 4-5, 2019 • Winston-Salem

Because networking is such an important part of nonprofit work, the 2019 Conference for North Carolina's Nonprofits is homegrown!

Join nonprofit colleagues from across the state to renew relationships, make new friends, and share learning and expertise from speakers hailing from our home state.

- ◆ Keynote Dana Weston will share "Leading with Optimism: The Power of Confidence in Chaos"
- ◆ Deep-Dive Workshops will delve into nonprofit legal compliance, addressing race equity in our organizations and the nonprofit sector, cause selling as a new means of nonprofit fundraising, and becoming a go-to thought leader through skillful marketing
- ◆ Concurrent sessions will cover everything from strategic program design, challenges facing philanthropy, diversifying your board, and creating inclusive events to the art of volunteer management, improving your financial operations, communicating with purpose, and engaging youth leadership
- ◆ The Nonprofit Marketplace will offer opportunities to meet and chat with businesses and consultants that work specifically with nonprofits
- ◆ The Networking Reception will kick off the connecting, and plenty of networking breaks provide opportunities to grow your inner circle
