

WE ARE TECHIES

How VetJobs' cutting-edge technology empowers our mission, candidates, and purpose.

Security: Fortress-Level Protection with Defendify

Cyber threats are real, and we take them seriously. Your personal information, your resume, your contact details, and your career history deserve top protection. We partnered with Defendify, to build a multilayered cybersecurity shield around our entire organization and guards our systems around the clock.

Our priorities include:

- 24/7 threat monitoring
- Dark web scanning
- Phishing simulations
- Vulnerability scanning
- Rapid incident response
- Zero Tolerance for compromised credentials

The result? Your data is in safe hands.

Career Tech: BrassRing: Where Opportunity Meets You

Our talent platform is powered by BrassRing, generously donated by Infinite Computer Solutions. This engine powers our job matching and candidate management, connecting you with employers, tracking your application, and keeping your profile in front of hiring partners actively seeking military talent.

Recent upgrades include:

- Smoother, faster workflows
- Enhanced reporting tools
- The Event Manager plugin to making virtual and in-person hiring events more powerful
- Lead Manager enhancements
- Increased customization to use this platform specifically for our mission

For all our active duty, veterans, guard, and reserve seeking their next career move, this means the best-in-class experience for our candidates.

Collaboration: Microsoft 365 Unifying Our Team

Migrating to Microsoft 365 has transformed the way our team works, communicates, and collaborates. Think of it as upgrading from a flip phone to the latest smartphone, where everything is faster, more secure, and built for scale.

Our team communicates through Microsoft Teams, manages documents through SharePoint and OneDrive, and operates under enterprise-grade security standards from every device.

What this means for you: a faster, more responsive team ready to act on your behalf. And a future-ready platform that will bring you AI-powered support and smarter job matching.

Our Mission's Infrastructure:

- Microsoft Teams keeps our entire team connected across multiple locations and timezones
- SharePoint & OneDrive make document management seamless and secure
- Enterprise-grade security protects every user, device, and app across the organization
- Automation, analytics, and AI capabilities are now within reach to create smarter, faster service for veterans and military spouses.

We're not just keeping up with technology, we're leading with it.

Millions of Jobs at Your Fingertips: DirectEmployers Association Partnership

With our DirectEmployers Association partnership, every veteran, military spouse, and transitioning service member on our platform gains access to millions of job listings from the National Labor Exchange: a custom job board donated specifically for our community. This is not just another job board. It is a career launchpad.

"Every upgrade, every new platform, every security enhancement — it all comes back to one thing: serving the military community better. We're not just keeping up with technology. We're leading with it."

The Future is Bright and Built on Great Tech

Every upgrade, new platform, and security enhancement all comes back to the priority of serving the military community better.

With a secure, scalable, and modern technology foundation in place, VetJobs is ready to grow, innovate, and connect even more veterans and military spouses to the careers they deserve.

WE ARE VETJOBS, AND YES, WE ARE TECHIES.
