Partnering to Reach Military Talent Onsite

October 2026

A Meaningful Partnership

At VetJobs and Military Spouse Jobs, partnerships are about more than collaboration. They are about creating pathways to employment, reducing barriers to workforce participation, and ensuring military-connected individuals have access to meaningful career opportunities.

That is why we are proud to continue strengthening our partnership with Hiring Our Heroes (HOH), an initiative of the U.S. Chamber of Commerce Foundation and a nationally recognized organization dedicated to connecting service members, veterans, military spouses, caregivers, and military family members with employers committed to hiring military-connected talent.

An In-Person Approach

HOH has long been a leader in bringing employers and military-connected job seekers together through high-impact hiring events and career summits. As our organizations continue to work together, we appreciate the opportunity to provide dedicated resource tables at select HOH career summits.

This enhanced presence allows us to engage one-on-one with attendees, offering career guidance, resume support, training and certification information, and direct connections to employers actively seeking military talent. While a career summit may begin the conversation, our goal is to help attendees continue their journey long after the event ends.

Together, our organizations are helping military-connected job seekers gain not only access to opportunities but also the support needed to achieve long-term career success.

This expanded collaboration builds on recent outreach efforts, including our participation at the Joint Base Langley-Eustis Career Summit, where our team connected with transitioning service members, veterans, military spouses, and family members seeking employment opportunities.

The success of that event reinforced a core belief shared by both organizations: workforce development is most effective when we meet people where they are and provide support tailored to their unique circumstances.

Upcoming Event

Our outreach continues with an upcoming HOH event:

Hiring Our Heroes Career Summit

November 10, 2026

Joint Base Charleston-Lindsey Graham, South Carolina

At this event, attendees can visit the VetJobs and Military Spouse Jobs resource table to learn more about employment opportunities, career coaching, training programs, certifications, and additional workforce resources designed to support military-connected individuals and their families.

Register for these events through the official HOH event registration pages **here**.

VetJobs and Military Spouse Jobs provide additional support for military-connected populations that often face unique barriers to workforce participation, including:

- Military spouses re-entering the workforce after years spent supporting military service, frequent relocations, caregiving responsibilities, or raising a family.
- Military youth and young adults ages 16-26 who are entering the workforce for the first time and exploring career pathways, training opportunities, and skill development.
- Military-connected mature workers in the 55+ community who are seeking new career opportunities, second careers, flexible employment, or opportunities to remain engaged in the workforce.

These individuals often possess tremendous leadership, adaptability, resilience, and life experience, but they may need assistance translating those skills into today's job market. Through career coaching, training opportunities, certifications, employer partnerships, and personalized support, we help bridge that gap.
