Limited Submissions

Some funding agencies impose limits on the number of proposals that an institution may submit for a specific funding opportunity. The following is a list of ***selected*** limited submissions that may be relevant to FAU investigators. Potential applicants should submit a pre-proposal by the FAU deadline listed below if they wish to apply.

FAU's procedures for identifying, advertising, and selecting applicants for limited submission opportunities are posted here. Please note we cannot possibly list every limited submission. If you are aware of a limited submission not listed here, please email limited@fau.edu.

Current as of: 2019-05-13 **FAU Deadline has passed or slot is full if grayed out**

Brain Research Foundation	2020 Scientific Innovations Award	The objective of the program is to support projects that may be too innovative and speculative for traditional funding sources but still have a high likelihood of producing important findings. To be eligible, the nominee must be a full-time associate professor/full professor working in the area of neuroscience and brain function in health and disease.	1	0	4/25/19	6/25/19
Brain Research Foundation	Fay/Frank Seed Grant Program	Provides start-up money for new and innovative research projects that have the potential to become competitive for an NIH grant or other external funding sources. To be eligible, the PI must be a full-time Assistant or Associate Professor working in the field of neuroscience.	1	1	10/8/219	1/8/2020 (anticipated)
Department of Defense (DoD)	Research and Education Program for HBCUs/MIs	This program aims to (a) enhance research programs and capabilities in scientific and engineering disciplines critical to the national security functions of DoD; (b) enhance the capacity of HBCU/MI to participate in DoD research programs and activities; and (c) increase the number of graduates, including underrepresented minorities, in fields of science, technology, engineering, and mathematics (STEM) important to the defense mission.	3	3	**5/15/2019**	7/15/2019

Department of Defense (DoD)	Research and Education Program for HBCUs/MIs **Equipment & Instrumentation**	Supports the acquisition of equipment/instrumentation to augment existing capabilities or to develop new capabilities in research areas of interest to DoD, and to attract students to pursue studies leading to STEM careers. (****anticipated*** deadline; not yet announced for FY 2020)	3	3	5/31/2019	8/16/2019*
Florida Blue Foundation	Consumer Health	Supports resources, information and programs to make it easier for underserved, underinsured or low-income individuals in Florida to find current and reliable health care services to manage their own health and well-being. **Funding Priority #1**: Mental Health **[not available]** **Funding Priority #2:** Health Literacy **One proposal is permitted in each category.**	2	1	4/24/2019	5/20/2019
Florida Blue Foundation	Innovation in the Health Care System	The Florida Blue Foundation's Innovation in the Health Care System aims to connect affordable, non-traditional health services to underserved, underinsured and low-income populations throughout Florida. The 2019 funding priority for Innovation in the Health Care System is to support and/or solve health care delivery systems for the underserved, underinsured and low-income populations; in particular seniors aging in place.	1	0	N/A	04/24/2019
Florida Blue Foundation	Quality of Patient Care	The intent of the Quality of Patient Care grant program is to support healthcare education programs and professional development opportunities designed to improve the safety of patient care.	1	0	N/A	04/30/2019

Florida Division of Cultural Affairs	Specific Cultural Project	The Specific Cultural Project (SCP) grant provides up to $25,000 to fund a specific cultural project, program, exhibition, or series. FAU faculty may find the "Arts Partnership funding category" most relevant for their capabilities. **Note**: Matching funds may be required. Go here for guidelines	1	0	4/12/19	6/3/2019
Florida Department of Health	Ed & Ethel Moore Alzheimer's Disease Research Program	The Ed and Ethel Moore Alzheimer's Disease Research Program funds research to improve the health of Floridians by researching better prevention and diagnoses of, and treatments and cures for, Alzheimer's disease. **Limitations vary; contact Research Development.**	Std: 7 Pilot: 4 Postdoc: 3		7/15/2019	LOI: August 2019 **(ANTICIPATED)**
Mellon Foundation	Recordings at Risk	Supports the preservation of rare and unique audio, audiovisual, and other time-based media of high scholarly value through digital reformatting. Awards range from $10,000 to $50,000 and cover costs of preservation reformatting for fragile and/or obsolete time-based media content. Eligible media include, but are not limited to, magnetic audio and video tape, grooved discs, wax cylinders, wire recordings, and film (with or without sound).	1 (per inst./per funding cycle)	1	5/1/2019 11/1/2019 5/1/2020 11/2/2020	7/9/19 1/31/2010 7/15/2020 1/19/2021
NEA	Art Works	These grants support artistically excellent projects that celebrate our creativity and cultural heritage, invite mutual respect for differing beliefs and values, and enrich humanity. Matching grants generally range from $10,000 to $100,000. A minimum cost share/match equal to the grant amount is required.	Varied; see eligibility details	**0**	4/11/2019	07/01/2019 – 7/11/2019
NEH	Infrastructure and Capacity Building Challenge Grants	The mission of the Challenge Grants program is to strengthen the institutional base of the humanities by enabling infrastructure development and capacity building. Awards aim to help institutions secure long-term support for their core activities and expand efforts to preserve and create access to outstanding humanities materials.	1	**0**	Not set*	5/15/2019

NEH	Summer Stipends	Summer Stipends support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Eligible projects usually result in articles, monographs, books, digital materials and publications, archaeological site reports, translations, or editions. Projects must incorporate analysis and not result solely in the collection of data.	2	2	06/25/2019	09/25/2019
NIH	Undergraduate Research Training Initiative for Student Enhancement (U-RISE)	The goal of the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is to develop a diverse pool of undergraduates who complete their baccalaureate degree, and transition into and complete biomedical, research-focused higher degree programs (e.g., Ph.D. or M.D./Ph.D.).	1	**0**	Contact limited@fau.edu	5/21/2019
NIH	Graduate Research Training Initiative for Student Enhancement (G-RISE)	The goal of the Graduate Research Training Initiative for Student Enhancement (G-RISE) program is to develop a diverse pool of scientists earning a Ph.D., who have the skills to successfully transition into careers in the biomedical research workforce.	1	**0**	Contact limited@fau.edu	5/21/2019
NIH	NIH Science Education Partnership Award	This funding opportunity announcement (FOA) encourages the development of innovative educational activities for pre-kindergarten to grade 12 (P-12), pre-service and in-service teachers (Teachers) and students from underserved communities with a focus on Courses for Skills Development, Research Experiences, Mentoring Activities, Curriculum or Methods Development and Outreach.	1	1	03/02/2019	07/02/2019
NIH	Environmental Health Sciences Core Centers (EHSCC)	The broad overall goal of an EHS CC is to identify and capitalize on emerging issues that advance improving the understanding of the relationships among environmental exposures, human biology, and disease. The EHS CC supports community engagement and translational research as key approaches to improving public health.	1	1	01/17/2019	04/17/2019

NIH	Outstanding New Environmental Scientist (ONES) Award	The Outstanding New Environmental Scientist (ONES) Award is intended to identify the most talented Early Stage Investigators (ESIs) who intend to make a long-term commitment to research in the Environmental Health Sciences and assist them in launching an innovative research program focused on the understanding of environmental exposure effects on people's health.	1	1	11/28/2019	02/28/2020
NIH	Stimulating Access to Research in Residency	The purpose of this program is to recruit and retain outstanding, postdoctoral-level health professionals who have demonstrated potential and interest in pursuing careers as clinician-investigators.	1	1	11/1/2019	2/13/2020
NIH	Collaborative Program Grant for Multidisciplinary Teams (RM1)	This funding opportunity announcement (FOA) is designed to support highly integrated research teams of three to six PD/PIs to address ambitious and challenging research questions that are important for the mission of NIGMS and are beyond the scope of one or two investigators.	1	1	Contact limited@fau.edu	1/25/2020
NSF	Materials Innovations Platforms (MIP)	Materials Innovation Platforms (MIP) is a mid-scale infrastructure program in the Division of Materials Research (DMR) designed to accelerate advances in materials research. MIPs respond to the increasing complexity of materials research that requires close collaboration of interdisciplinary and transdisciplinary teams and access to cutting edge tools	1	1	02/26/2019	04/26/2019
NSF	Quantum Computing & Information Science Faculty Fellows (QCIS-FF)	The QCIS-Faculty Fellows (QCIS-FF) program aims to grow academic research capacity in the computing and information science fields to support advances in quantum computing and/or communication over the long term. Proposals are solicited from departments of computer science, information science, and/or computer engineering. PIs are restricted to the Department Chairs/Heads, or persons acting in such or similar capacities. **LOI required**	2	2	04/01/2019	07/01/2019

NSF	National Science Foundation Research Traineeship (NRT) Program	Designed to encourage the development and implementation of **bold, new, and potentially transformative models for STEM graduate education** training. https://www.nsf.gov/news/news_summ.jsp?cntn_id=242612 **LOI required**	2	2	07/25/2019	11/25/2019
NSF	Innovations in Graduate Education (IGE) Program	IGE focuses on projects aimed at piloting, testing, and validating innovative and potentially transformative approaches to graduate education. The program supports testing of novel models or activities with high potential to enrich and extend the knowledge base on effective graduate education approaches.	2	2	05/27/2019	09/27/2019
NSF	Research Experiences for Teachers (RET) in Engineering and Computer Science	Supports active long-term collaborative partnerships between K-12 Science, Technology, Engineering, Computer and Information Science, and Mathematics (STEM) in-service and pre-service teachers, full-time community college faculty, and university faculty and students through participation in authentic summer research experiences with engineering and computer science faculty researchers.	3	**2**	06/19/2019	09/19/2019
NSF	Science and Technology Centers: Integrative Partnerships	Supports exceptionally innovative, complex research and education projects that require large-scale, long-term awards. Focus is on creating new scientific paradigms, establishing entirely new scientific disciplines and developing transformative technologies that have potential for broad scientific or societal impact. Encourages partnerships among institutions of higher education, national laboratories, industrial organizations, other public or private entities, and via international collaborations, as appropriate.	3 (pre-proposals)	3	4/1/2019	06/25/2019
NSF	Advancing Digitization of Biodiversity Collections	This program seeks to enhance and expand the national resource of digital data documenting **existing vouchered biological and paleontological collections** and to advance scientific knowledge by improving access to digitized information (including images) residing in vouchered scientific collections across the United States	1	1	07/11/2019	10/11/2019

NSF	Improving Undergraduate STEM Education: Hispanic Serving Institutions	The Improving Undergraduate STEM Education: Hispanic-Serving Institutions (HSI Program) seeks to **enhance the quality of undergraduate STEM education at HSIs and to increase retention and graduation rates** of undergraduate students pursuing degrees in science, technology, engineering, and mathematics (STEM) at HSIs.	1	1	05/18/2019	09/18/2019
NSF	Physics Frontiers Centers	The Physics Frontiers Centers (PFC) program supports university-based centers and institutes where the collective efforts of a larger group of individuals can enable transformational advances in the most promising research areas. (**Accepting Preliminary Proposals**)	2	2	6/1/2019	8/1/2019
NSF	Major Research Instrumentation	The Major Research Instrumentation (MRI) Program provides support to develop or acquire critical research instrumentation to advance the frontiers in science and engineering research. An MRI proposal may request up to $4 million for either acquisition or development of a research instrument. **Limits:** Track 1: Proposals that request funds from NSF greater than or equal to $100,000 and less than $1,000,000. (**No more than 2 proposals per institution allowed**) Track 2: Proposals that request funds from NSF greater than or equal to $1,000,000 up to and including $4,000,000. **(No more than one submission in Track 2)**	3	3	10/19/2019	1/19/2020
The Sea Turtle Grants Program	Sea Turtle License Plate Grants	Funded by a portion of revenues from Florida's Sea Turtle Specialty License Plate, the Sea Turtle Grants Program distributes funds each year to support sea turtle research, conservation and education programs that benefit Florida sea turtles.	4	4	09/09/2019	11/09/2019
