

# Responsible Conduct Research

## ***Did you know?***

All National Institutes of Health funded researchers are required to participate in a new course called Responsible Conduct of Research (RCR)?

RCR course content includes:

- Scientific integrity in the research community
- Data management
- Issues in human subject and animal research
- Collaborative science in academia and industry
- Social responsibility in research
- Conflicts of interest
- Publication, peer review and authorship
- Intellectual property

For more information, contact Jazarae McCormick, Ed.D., at [jkirchdo@fau.edu](mailto:jkirchdo@fau.edu).
