LIMITED SUBMISSION

The Division of Research announces limited submissions on their website and coordinates the internal review process to identify the institution's nominee.

Medical Scientist Training Program (T32) Synopsis 1

Internal deadline: Not applicable; contact the Office of Research Development.
Agency deadline: Multiple agency deadlines.
Limit: 1 per institution

Synopsis of Program:

The goal of the Medical Scientist Training Program (MSTP) is to develop a diverse pool of highly trained physician-scientist leaders available to meet the Nation's biomedical research needs. Specifically, this funding opportunity announcement (FOA) provides support to eligible domestic institutions to develop and implement effective, evidence-based approaches to integrated dual-degree training leading to the award of both clinical degrees, e.g., M.D., D.O., D.V.M., D.D.S., and research doctorate degrees (Ph.D. or equivalent). With the dual qualification of rigorous scientific research and clinical practice, graduates will be equipped with the skills to develop research programs that accelerate the translation of research advances to the understanding, detection, treatment and prevention of human disease, and to lead the advancement of biomedical research. Areas of particular importance to the National Institute of General Medical Sciences are the iterative optimization of MSTP training efficacy and efficiency, fostering the persistence of MSTP alumni in research careers, and enhancing the diversity of the physician-scientist workforce. The National Institute of General Medical Sciences expects that the proposed research training programs will incorporate didactic, research, mentoring and career development elements to prepare trainees for careers that will have a significant impact on the health-related research needs of the Nation.

This funding opportunity announcement does not allow appointed trainees to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.
