LIMITED SUBMISSION

Partnerships for Research and Education in Materials

Deadlines

FAU internal deadline: Dec. 1
External deadline: Jan. 29
Limit: 1 nominee per institution

The Division of Materials Research Partnerships for Research and Education in Materials Research (PREM) program aims to enable, build, and grow partnerships between minority-serving institutions and DMR-supported centers and/or facilities to increase recruitment, retention and degree attainment (which defines the PREM pathway) by members of those groups most underrepresented in materials research, and at the same time support excellent research and education endeavors that strengthen such partnerships.

This program is limited to **one submission** per university. If interested, send a brief email describing your project to limited@fau.edu, no later than **December 1**. If by this date more than the allowed limits are interested in submitting a proposal, an internal competition will be held. If an internal competition is not warranted, those that demonstrated interest will be designated and their proposals will be submitted for FAU.
