Sys|dem delivers a comprehensive, web-browser based office management system for the Food Industry. Utilizing the latest technologies and compatible with tablets and mobile devices, Sys|dem offers a real-time view of your business anytime, anywhere, on any device.

Featuring integrated business management applications, including production management, CRM, EDI, delivery route management, HACCP and quality management... and all 100% backwards compatible with your existing Officelink and Jetpack system.

■ **Dashboards and Integrated Reporting**

Making informed decisions is critical to project success, and having an integrated reporting dashboard allows you to unify all relevant info in one location.

■ **Sales Order Management**

Centrally manage sales activities, such as enter quotes, fulfil sales orders, create deliveries, track prices, apply discounts, and check available inventory.

■ **Integration with Accounting**

Seamlessly create and update customer records between your accounting system and Sys|dem so your customer data is always up to date.

■ **Production Management**

Control all aspects of production management from the creation of work orders to tracking the work orders through the production process.

■ **CRM - Customer-Relationship Management**

Manage your entire contact base in one single place, track your leads to point of sale, and make informed business decisions based on accurate information.

■ **Integrated Label Designer**

Quickly set up or edit professional product labels and print those designs to a laser or thermal transfer printer. Generate FSA-compliant nutritional information, ingredient information, labels, allergen statements, and any qualifying nutrient content claims.

■ **Automated Document Emailing**

Automatically schedule documents to customers, reducing time, effort and costs associated with traditional document management, and increasing operational efficiencies within your business.

■ **Fully GDPR Compliant**

100% compliant with the requirements of the General Data Protection Regulation in the EU.

■ **E-commerce Integration**

Connect your online store - Automatically sync your online orders to Sys|dem to see all your sales in a unified view.

■ **EDI - Electronic Data Interchange**

Eliminate the costs of paper, printing, reproduction, storage, filing, postage, and document retrieval. EDI drastically reduces administrative, resource and maintenance costs.
