

Side yard on March 22

Along the existing chain link fence (March 22) –

Along the chain link fence, May 15

More before backyard pictures

Before picture of the place for pavers (eventually) – who knew how many marble slabs, broken bricks, stones and rocks would be hidden just beneath the surface?

Before pics of front of the house

Before pics of front flower bed

RESULTS:

The stones / rocks and bricks from the paver place, went into the most beautiful dumpster in the world.

Cleaned up side yard and the most beautiful chain link fence ever!

BEAUTIFUL back yard

Trimmed hedge, and mowed lawn

Beautiful new front flower bed, with new juniper bushes, and a new support trellis for Grandma Frost's rose bush

Fence is fully primed, and the majority already has one coat of paint on it. Looking sharp!

We still need to finish:

- Second coat of paint to wrought iron fence
- Scrape, paint and repair Ayriole's grandma's bench
- Install pavers besides garage
- Remove deteriorating ceiling tile in the basement.

We are continuing to gather funds to put towards repairs to the garage roof and tuck pointing.
