

NWT Association of Communities

Connecting Community Governments Since 1966

NWTAC Climate Change Resilience Award

Sponsored by:

Government of
Northwest Territories

Environment and Climate Change

Award Description

Goal

- Celebrate an NWT community that demonstrates leadership in climate change adaptation.
- Honour a community that is taking a pro-active approach to the challenges caused by climate change and has strengthened community resilience through their actions!

Eligibility

All 33 community governments in the NWT

Criteria

Demonstrate how your community is taking action to address climate change impacts and build resilience. Some examples include:

- Mainstreaming climate change into existing budgets, policies and bylaws, operations, and planning.
- Offering opportunities and programs for residents to learn and take action to become more resilient to climate change (such as community gardens, fire smarting, harvesting and cultural programming);
- Undertaking planning and assessment projects to identify climate change risks and vulnerabilities and develop tools and plans to build resilience.
- Taking steps to make infrastructure more resilient to climate change.
- Partnering and communicating with other organizations, communities, and other levels of government to support climate change adaptation; and
- Participating in related training, pilot studies, workshops etc.

Award

\$5000 to go towards a resilience-building initiative in the winning community.

Complete the Nomination form and include an explanation of why your community should receive the Climate Change Resilience Award. Tell us how you as a community are actively promoting resilience in the face of a changing climate.

Deadline for Nominations: January 24, 2025

Community Nomination Form
