

## ELECTEDS-ONLY NETWORK CALLS

Our **bi-weekly Electeds-Only Calls** provide opportunities to connect with other elected officials and offer a meeting space where municipal leaders can raise issues and get practical help from colleagues.

## REGIONAL NETWORK CALLS

Climate Caucus is a national organization, and we recognize that climate issues and best practices vary across the country. Currently, we have five regional chapters: **Ontario, Atlantic, Outdoor Recreation + Rural/Smaller Communities, British Columbia and Prairie Chapters.**

These groups are open to local elected officials and provide regional-specific resources, support and network calls.

## COUNCILLOR HANDBOOK

Our **Councillor Handbook** - a toolkit for elected leaders to take action in their communities - is full of local government initiatives, funding sources, key contacts, case studies, bylaws, resolutions, briefing papers, economic benefits, and more!

You can access our Handbook under "Resources" on our [website](#).

## ELECTEDS-ONLY WEBSITE

The **Electeds-Only** website includes a list of grants for local governments across Canada, an online library with motions and bylaws, recordings from our national Electeds-Only calls, and more!

## ELECTEDS-ONLY GOOGLE GROUP

Our **Climate Caucus Elected Members Google Group** is a way for Climate Caucus elected members to reach out to one another with questions and ideas.

## BI-WEEKLY NEWSLETTER

This **bi-weekly email** includes information on our upcoming events, network calls, webinars, links to resources for elected officials, and relevant updates from members and Climate Caucus.
