Task Force*

At-Risk Task Force Overview

For more information: www.cdc.gov/COVID19

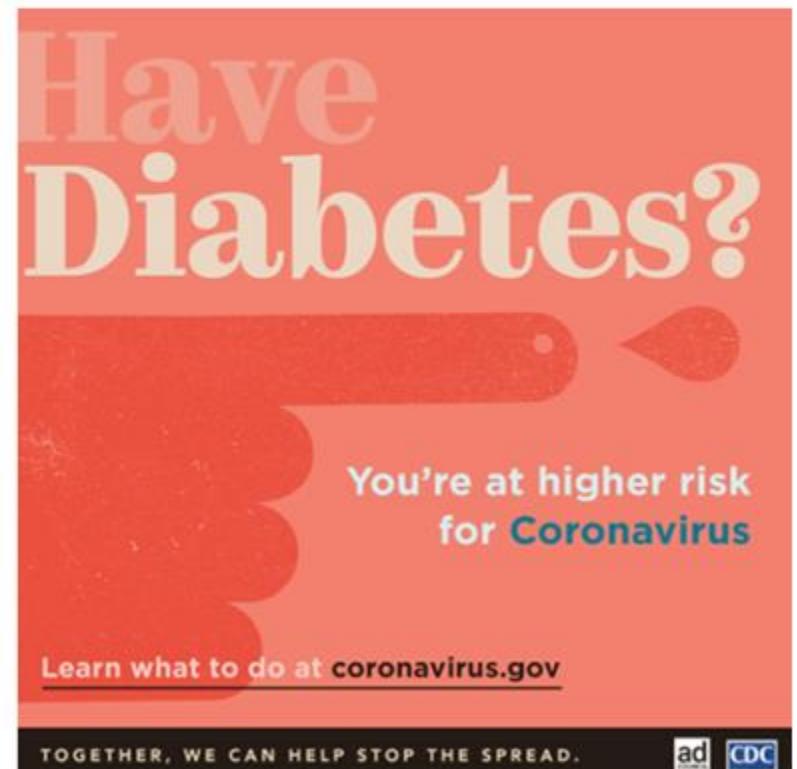

COVID-19: At-Risk Task Force Mission

- Reduce morbidity and mortality of those at risk
 - At-risk medical conditions
 - Groups at risk
 - Social-behavioral health

CDC
3 hrs · ⓘ

While there is limited information regarding risk factors for severe illness from COVID-19, people of any age who have serious underlying medical conditions like diabetes may be at higher risk for getting sick. Learn what actions you should take to reduce your risk: <https://bit.ly/2UurzDU>

A graphic with a red background featuring the text "Have Diabetes?" in large white letters. Below this, a red ribbon graphic sweeps across the page. The text "You're at higher risk for Coronavirus" is displayed in white. At the bottom, the text "Learn what to do at coronavirus.gov" is shown in white, followed by a black bar with the text "TOGETHER, WE CAN HELP STOP THE SPREAD." and the CDC logo.

At-Risk Taskforce: What We Do

Higher Risk for Severe Illness

- People 65 and older
- People who live in a nursing home or long-term care facility
- People with chronic lung disease or moderate to severe asthma
- People who have serious heart conditions
- People with severe obesity (body mass index [BMI] of 40 or higher)
- People with diabetes
- People with chronic kidney disease undergoing dialysis
- People with liver disease

Other Populations at Risk

- Pregnant people
- People experiencing homelessness
- People with disabilities
- Minority groups (racial and ethnic, sexual, and gender)

In conjunction with CDC communications

- People who speak English as a second language
- People with low literacy

Social-Behavioral Health and Emotional Wellbeing

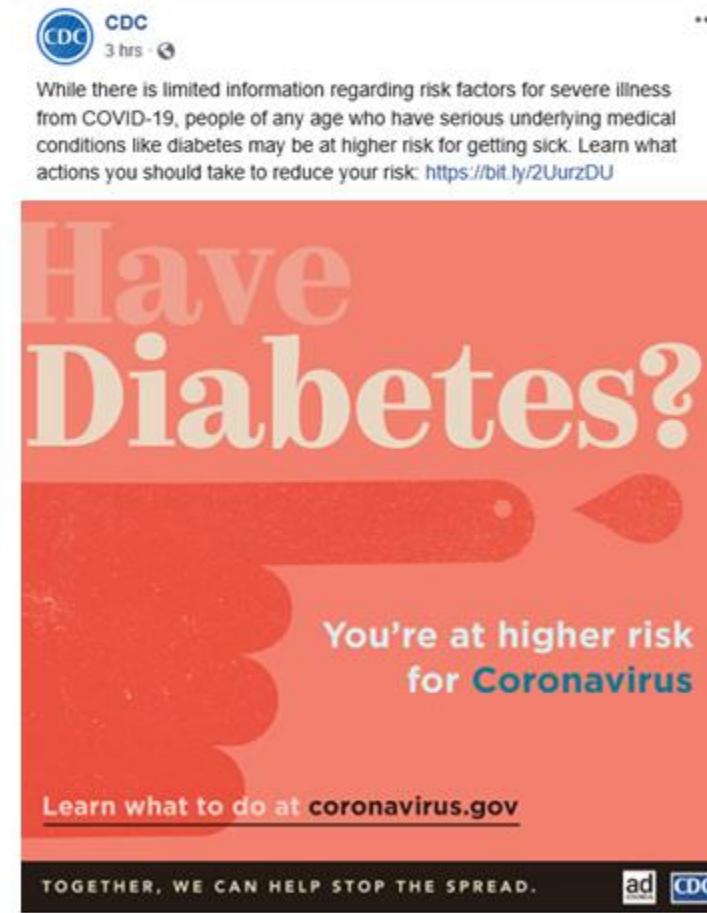

- Substance abuse
- Interpersonal and domestic violence
- Mental health, coping and resilience

A screenshot of a CDC Facebook post. The post features a photo of an older couple looking stressed. The CDC logo is in the top left, and the text "Yesterday at 9:25 AM" is in the top right. The post reads: "Older adults and people with disabilities and underlying medical conditions can experience more stress and anxiety during the COVID-19 outbreak than other people. Find ways to reduce your stress and anxiety: • Take breaks from watching, reading, or listening to news stories, including social media. • Make time to unwind and do activities you enjoy. • Connect with family and friends by phone, text, or email... See More" A "CORONAVIRUS DISEASE 2019 (COVID-19)" banner is at the bottom. The post has a "Learn More" button and social sharing icons.
