CRST
CENTER for RAPID SURVEILLANCE of TOBACCO

HELP US MONITOR TOBACCO AND NICOTINE PRODUCTS USED BY TEENS!

Scan the QR code and follow instructions to upload a photo!

What are our goals?

- Identify products, flavors, and brands youth access.
- Alert FDA and state agencies to products illegally obtained by youth.
- Support prevention, education, and enforcement efforts.

What do we need from you?

Photos of tobacco or nicotine products from elementary, middle, and high schools students.

Why does this matter?

- Data helps create safer school environments.
- Some products contain harmful or addictive chemicals.
- Understanding what youth are accessing helps schools, public health officials, and regulators respond effectively.

What are we doing with the data?

- We catalog and describe each product in detail.
- We analyze the findings to identify regional and national trends.
- Share findings with schools and public health partners.
