

# Housing & Environmental Equity Survey

This is your chance to tell decision makers what's important to you!

Survey hosted by Eastside For All in partnership with the Eastside Environmental Equity Coalition

The Eastside Environmental Equity Coalition (EEE)\* is gathering information from people about their experiences with income-based housing, often called "affordable housing." We are a group that advocates for affordable housing and the policies needed to equitably meet housing goals for people who live, work, or play in East King County.

Currently available in English, Español, 한국어, తెలుగు, with more languages coming soon!
