

COVID-19 Convalescent Plasma Program: Donors Needed!

Vitalant is collecting plasma from people who have recovered from coronavirus to help COVID-19 patients.

You may qualify if you meet this criteria:

- prior diagnosis of COVID-19, documented by a laboratory test
 - or a positive test result for SARS-CoV-2 antibodies
- complete resolution of symptoms for at least 14 days (some hospitals require more time)
- a current negative test result for COVID-19
- all other donor eligibility for an automated plasma donation

Are you a potential donor who has completely recovered from COVID-19? To get started, fill out the form at:
