CHERYL BRADLEY, Associate Director, CMA's Center for Economic Services

In her capacity as Associate Director in CMA's Center for Economic Services, Cheryl provides support to CMA member physicians on Medicare issues. Cheryl has more than 20 years of experience in the Medicare Program, having worked as an Education and Training Specialist, Medical Review Analyst, and as a Customer Service Representative across all the CA Medicare contractors including Noridian Healthcare Solutions. Over the years, Cheryl has provided problem solving assistance to physicians, specialty organizations, billing staff, and other healthcare professionals throughout CA, Hawaii and Nevada.

This presentation focuses on changes to the Medicare program in 2020, including the 2020 Medicare physician fee schedule, annual updates and reducing the burden of Medicare paperwork. Presented by one of CMA's experienced practice management experts, the presentation will review the Quality Payment Program (QPP) Year 3, streamlining evaluation and management documentation guidelines, avoiding common mistakes and compliance with the current Medicare Administrative Contractor.
