**SPANISH: Buenas Prácticas de Manejo de Plantas en Jardinería**  
***(Best Management Practices for Landscape Plants)***

Dr. Raul Cabrera, Rutgers University

Esta clase cubrirá las buenas prácticas de manejo usadas en jardinería que ayudan a mantener la estética y funciones de plantas, árboles y céspedes

*(This webinar will cover some of the most important plant management practices that sustain the beauty/aesthetics and function of landscape plants, trees and turfgrass).*

Biography:

Dr. Raul Cabrera is an Extension Specialist and Associate Professor in Nursery Crops and Ornamental Horticulture with Rutgers University. He specializes in the biology, production and management woody ornamental plants and trees. In recent years his research has focused on irrigation water quality, assessment of tree/plant nutrient and water requirements, salinity management in trees and shrubs, and fertilization and irrigation management of plants in commercial nurseries and urban environments.
