FLASH MOB

The Africana Studies Department has partnered to put on a Flash Mob celebration for Black History Month Celebrating our ancestors: we are the dreams of our ancestors. This event celebrates Black History Month, with emphasis on the power of the Black mind and body as the site for tracing the incredible Black struggle for social justice. The event begins with traditional West African drumming as dancers/movers stream from left to right, one by one, in a parade (see schematic below). They walk, dance, and simulate swimming and trekking. While doing this they repeat phrases such as Wade in the Water, thereby making the connection to Harriet Tubman, Frederick Douglass, Jr., and other 19th century civil rights activists. We are proud of what we have achieved and that inspires us to dream. Join us in celebrating black history and black culture.
