

New Product Announcement

EXTREME DUTY (XD) WHEEL HUB ASSEMBLIES

The GSP Extreme Duty (XD) Wheel Hub Assemblies are engineered to perform in the conditions that challenge standard wheel-end components. Designed for vehicles operating on rough roads, in harsh weather, and under demanding service environments, GSP XD hubs deliver the durability and dependability partners and installers expect.

PRODUCT FEATURES

- **Extreme-Duty Built:** Engineered to perform on rough roads and in harsh environments where standard hubs fall short.
- **Protected for the Long Haul:** Advanced sealing and corrosion-resistant coatings help shield internal components from moisture, debris, and road chemicals.
- **Quality Driven Performance:** Built with durable materials and controlled manufacturing to deliver reliable, long-lasting wheel-end performance.
