

WORKSHOP

FOR EARLY CHILDHOOD EDUCATORS

Developed with preschool educators and early childhood specialists, Project Learning Tree's Environmental Experiences for Early Childhood includes over 130 experiences that engage children in outdoor play and exploration. It is specifically designed for educators who work with children ages three to six. Topics include exploring nature with five senses, meeting neighborhood trees, and experiencing trees through the seasons. An accompanying music CD features songs from children's musician Billy B. Brennan that encourage children to sing, dance, and move.

Workshop
approved for 3
SC Endeavors
recertification
hours

Participants will first partake in a 1.5 hour live video conference in which they will get acquainted with the South Carolina state program, learn about helpful online resources, and participate in two PLT activities. They will then get access to an electronic copy of the activity guide and the accompanying online professional development training, which will be completed individually. Once completed, participants will receive an official certificate of completion from the SC PLT program.
