September 14, 2018

Dear Community and Business Partners,

I am very pleased to invite you to a formal Ribbon Cutting ceremony on Wednesday, October 10 at our Career-Tech Center, 880 Parsons Road in Traverse City, to celebrate completion of the expansion projects for Manufacturing Technology Academy, Precision Machining, Mechatronics and Welding Technology building additions.

This project was made possible through the vocational education millage provided by the region's taxpayers and from the encouragement and support of our community schools and regional business partners. We are very proud that we are now able to house our Manufacturing Technology Academy and Precision Machining programs on the Career-Tech Center campus and provide a larger space that will enable us to welcome more students and increase learning opportunities in manufacturing, engineering and skilled trade career fields. This event marks the end of a year-long construction project which was completed on time and on budget for the start of the 2018-19 school year.

Please join us Wednesday, October 10 as we formally celebrate with students and community. A brief presentation will begin at 10:00 a.m. with an official ribbon cutting by education leaders and business partners, and tours to follow.

Feel free to share this invitation with those you wish to attend. You are welcome to contact me with questions or for further detail.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nick'.

Nick Ceglarek, Ed.D.  
TBAISD Superintendent
