**Our Mission...** OneHitAway Foundation provides education support and resources for brain healing and brain health resulting from sports-related brain injuries (sub-concussive hits and recognized concussions or Traumatic Brain Injuries).

**Our Vision...** Institute a cultural shift from the "denial of brain damage" in today's sports community to one which actively engages in the "healing of brain damage" for tomorrow's sports community.

*To those who have laid on their swords for the brains of our future, we thank you and your families for your sacrifice and the attention you drew to the tragic consequences of sports-related brain injuries.*

**In Memory of Dan Turner - Donors**
