

For over 25 years, WWf(a)C has provided a safe, non-competitive environment for individuals to develop their writing skills, cultivate their creativity, and strengthen their voices. Our writers, whether first-timers or the more experienced, find community, connection, and meaningful conversation within our circles. We encourage writing as a process of self-discovery and self-expression—a celebration of the individual voice. Our classes provide a unique setting in which honoring each other's words and learning to give and receive constructive feedback enrich participants' lives.

From October 2018 to October 2019, ten collaborative programs will be held, generally at the locations of partner organizations. Each program will focus on an exhibit, performance, play, collection, film, or other cultural representation.
