

Work & Witness Coordinator Emeritus

June Jarrell

June Jarrell was presented the District Work & Witness Coordinator Emeritus Award during the 41st CGC District NMI Convention at Dothan on May 14, 2024.

“Miss June” or “Big Mama” as most people call her, has been on more mission trips serving as a trip leader or team member than probably all of us put together. Over the years, she watched her father go on mission trips to different countries and this instilled in her the love for missions.

This precious lady has been involved in missions and mission trips for over a half century. She began to go on mission trips when it was not fashionable for women to go. They mostly went as cooks and laundry ladies. She began to lead teams when there wasn't anyone else that would do the work of organizing and promoting the trips, and I might add, raising the necessary funds for the projects. She has proven over the years her word is her bond, meaning when funds are given for a project that is exactly where it will be used. She never sought recognition, only that God got the glory, and the people got the building.

God isn't finished with her yet, as she just made the trip to Cuba this past February, and she says don't count her out on the next trip next February 2025 because, Lord willing, she plans to be on that trip also. If you haven't experienced the opportunity of being on a trip with her, it's definitely your loss.

We, and thousands across the world, are happy that God is still using her today. Without a doubt, she will have a special place in heaven when God is finished with her here. I'm sure He will put her on His team to prepare a place for those yet to enter heaven.
