VALUES AT WORK

SUSTAINABLE INVESTING
AND ESG REPORTING

Daniel C. Esty, Todd Cort (Eds.)

“Values at Work offers a clear view of the path forward for sustainable investing—and is the single most important book written on the topic. The authors have the credibility, experience, and courage to call out the flaws in the current ESG data system and to articulate what must be done to access the right information to drive value creation for investors and society at this critical point in time for the future of capitalism.”

— John Streur, President and Chief Executive Officer, Calvert

2020, 239 pages
Hardback \$54.99 / £44.99
Ebook \$39.99 / £37.44
