

## JA Excellence Through Ethics™

### ELEMENTARY GRADES: 3-5

This 9-session program is a great way for students and their families to confirm what we *do* know – that the importance of education remains relevant every day!

These activity-based lessons will help students practice and hone their skills to think critically and creatively. Each lesson/activity may need to be modified to meet the needs of the student(s) you are supporting as they learn from home.

## JA Excellence Through Ethics™

ELEMENTARY GRADES: 3-5

### BONUS VIDEO SESSIONS for K-2 Students

- [Session 1 - Meet our JA Kid Professor!](#)
- [Session 2 - The JA Kid Professor Talks Taxes!](#)
  - Spend just a couple of minutes with one of our favorite 6 year olds and learn some basic concepts about money and how adults have to be responsible with it.
  - Have your student watch each video above. After watching, start a conversation by asking these questions:
    - Do you think you will have an “income” someday?
      - How will you earn your income?
      - Share some ways you can earn a small income today at your age.
    - Taxes sound scary, but they are really not. They help pay for things that help people every day.
      - According to the JA Kid Professor, what kinds of things do taxes pay for?
      - Why do you think it’s important that we help pay for these kinds of things?
    - **ACTIVITY:** Have student use a sheet of paper and draw a picture showing how they plan to earn an income some day when they are adults.
      - When finished, ask them to share their picture with you and explain in how they are planning to earn their income in the future.
