This live streamed event humanizes George Floyd and shows the nature and magnitude of his family's devastating loss while addressing systemic racism, the power of protest and how each of us can help bend the arc of Dr. Martin Luther King's "moral universe" toward justice.

Skillfully and intelligently moderated by scholar and activist Nyle Fort, this unique and powerful experience featuring George's Aunt Angela and Uncle Selwyn has been shared with 26 other colleges and universities.

*"Powerful testimonies all around. The personal storytelling — both in the immediate experience of the family members as well as reflections on the long-term problem — was compelling."*

— North Park University

*"Much needed and inspirational!"*

— Suffolk County Community College
