

Update to the Shaker Schools Family Directory Smartphone App

The company that manages the directory, A to Z Directories, updated their website and smartphone app this summer. When existing users open the app on their phone, they will see this:

When you click on the link to access the new software, you will be prompted to enter your information. **DO NOT** add the new icon to your home screen until you have logged in or you will continue to get this message. Once you have logged in, follow these directions to save the directory on your home screen. Please note, it is no longer an app, rather the website and your login information gets saved on your home screen with an icon you can open just like an app.

iOS (use Safari, this will not work with other browsers)

1. Click the  button
2. Select "Add to Home Screen"
3. An AtoZ Connect icon  has now been added to your home screen.

Android

1. Click the  button and then tap "Add to Home screen"
2. Click "Add"
3. An ZtoZ Connect icon  has now been added to your home screen
