

# Houseparty

## Directions to Set up App

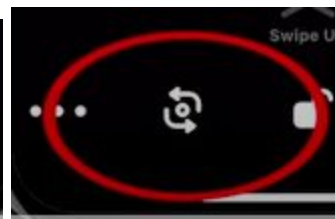

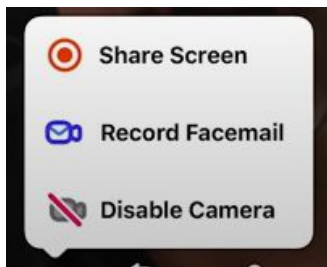

Download the app to the device (IOS, Android, or Chrome). There is an age requirement of 12 years old and up to join. Set up an account.

You will need to allow the Houseparty app access to your camera and microphone.

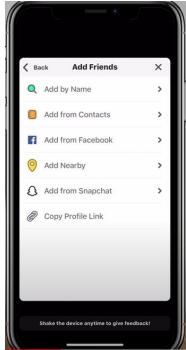

Three white dots appear on the bottom left corner of the screen. This will allow you to share your screen with friends, record a message to send to someone, or access the camera settings.

Next, add friends to your Houseparty list. You can use contacts from your phone, FB, Snapchat, or location.

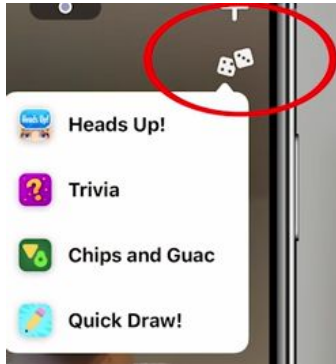

Open up the app and invite people to your Houseparty room.

Once in the room, there is the option to lock the room. This way, no one else can join the room except the people you invited to join.
