follow the presentation.

# breaking

the code of silence

■ **STEPHEN FRIED**, the co-author of Patrick Kennedy's book, *A Common Struggle*, award-winning journalist, and Harrisburg native, discusses how the deafening sound of not talking about brain diseases pervades American life. "It is nowhere more troubling—nor more potentially and profoundly reversible—than in our houses of worship and our faith communities."

We invite members of all faith communities to join us in initiating decisive actions that will make our congregations more welcoming, supportive, and inclusive.

JFS helps individuals and families meet life's challenges; we are a forward-thinking mental health and social service agency dedicated to helping people achieve full potential while honoring choice, diversity, and Jewish values through every stage of life.
