

TRANSFORMING THE DIFFICULT CHILD:

The Nurtured Heart Approach® consists of a set of strategies that assists children in further developing their self-regulation and has been found effective with children of all ages. It focuses on transforming the way children perceive themselves, their caregivers and the world around them. Children learn to understand that they will receive endless amounts of praise, energy, recognition and reward through the positive behavior they display and this supports children to build a positive portfolio of themselves, which NHA calls "Inner Wealth™."
