TAX FACTS - IMPORTANT INFORMATION FOR OUR GUESTS

Federal income tax laws and regulations impose important requirements concerning the documentation you must have in order to substantiate the deductibility of certain charitable contributions. The highest/winning bidders will receive a receipt that will list both the estimated fair market value of each item purchased (if known) and the amount paid for each item. Please save the receipt for your records in order to substantiate any income tax deductions you may take as a result of your auction purchases.

We have done our best to make a good faith estimate of the fair market value of each item in the auction as required by the IRS. Item values represent the donor's estimates and are not warranted for tax purposes or for general value. Normally, auction purchases are tax-deductible only to the extent that the amount paid for an item exceeds the fair market value of that item.

We encourage you to consult your tax advisor for additional information.
