

Partners for Faith & Health Network

Monthly Meetings

Every Third Thursday of the Month
10:00-10:45 a.m.

The Partners For Faith & Health Network was created by Advocate Trinity Hospital and South Suburban Hospital to bring together leaders of all religions, community members, and people in the health field. We want to work together to advocate and promote lifestyles and activities that prevent and/or support the management of chronic disease in the Southland community. Together, we learn about health topics and discuss how we can improve the health of the people in our community.

Join the meetings with this code or link:
