COVID-19 Recovery Clinics Provide Support and Hope

What: Advocate Aurora Health Post COVID-19 Recovery Clinics

Where:

- **Advocate Illinois Masonic Medical Center, Chicago**
- **Advocate Christ Medical Center, Oak Lawn, Ill**

Who: Clinics serve "long haulers" - patients who are experiencing lingering symptoms or additional health problems after being cleared of COVID-19.

Why: Treatment can help patients learn how to deal with and improve post-COVID symptoms, such as chronic fatigue, brain fog, headaches, anxiety, and other neuropsychiatric effects.

How: Patients undergo a comprehensive assessment and are directed to care tailored to their individual needs. This includes, but is not restricted to, heart and lung assessments, memory assessments, and referrals to specialists.
