

CLARETIAN ASSOCIATES  
Building Community in South Chicago

## Claretian Associates and South Chicago Neighborhood Network Invite You to a Support Team Leader and Team Member Training

### Support Team Leader and Team Member Training Webinar

Monday, June 29, 10am-Noon

- Who is ready to benefit from the Support Team model?
- Are you looking to make a difference in your community?
- Are you a part of a working group that could use some organization?

*Sounds like you are ready for the next step in building a Support Team!*

What is a Support Team? Support Teams are volunteers who come together to provide practical, emotional, and sometimes spiritual support to people in need of extra care. This is a great model for creating teams that can make an impact in your community.

Support Teams are simple, flexible and guilt-free. Each team member does what they can, when they can, with a support system behind them.

We invite organizers, and leaders to experience this training so that you are prepared to train your individual teams. **Every team should go through this training as they start their work together.**

During this two-hour online workshop you will:

- Discover what makes teams work and successful.
- Create a Team Covenant.
- Participate in simulations on ways to offer practical, emotional and spiritual support.
- Explore scenarios on boundaries and limits.
- Look at a model for effective team meetings.
- Develop a plan for your teams next steps.

When you complete this training, you will be prepared to train your individual teams to start their work together.

**We invite you to take the next step with us. Register [Here](#).**

#### Presenters

Maryanne Kyle-Di Pietropaolo (right) and Henrieta Ribeiro of IE3 are writers, speakers and retreat leaders with extensive experience in leading Support Teams and training others to lead them.
